Power Consumption	<5mW
Backup Battery	9V
Certifications:	UL60950-1 (AC ADAPTER) FCC, Level VI Efficiency, FDA

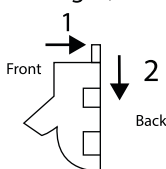

Product Diagram

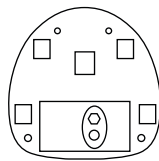

How to Install

Please visit fosmon.com and search "51072HOMUS" for the installation and operation video.

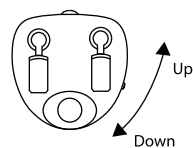

1. Remove the mounting plate by pulling the tab to the right, and pushing down.

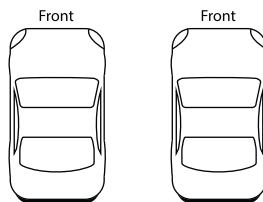

2. (Optional) Remove battery compartment cover and install a new 9v battery. Re-install battery compartment cover.

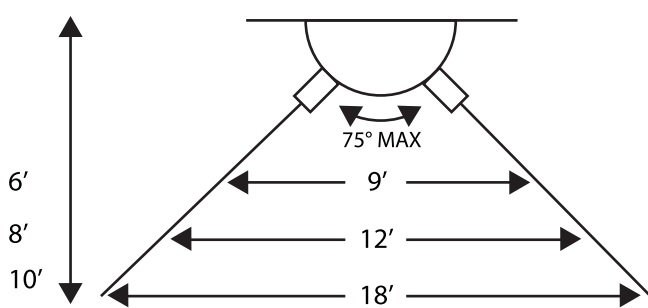

3. Toggle the switch up to activate the left laser, or toggle the switch down to activate both lasers.

4. Park vehicles in the desired location.

5. Position the mounting plate on the ceiling between vehicles. Installing the unit higher will allow for a larger width to adjust your laser.

6. Use either mounting screws or mounting tapes to mount the mounting plate into position.
7. Install Parking Assistant onto the mounting plate.
8. Adjust lasers to point to a predetermined spot on each vehicle.
9. Plug in AC adapter. May require running an extension cord if the outlet is not within proximity to the mounting location.

How to Operate

1. Laser will activate when motion is detected in parking area or garage.
2. Laser will stay illuminated for 30 seconds after vehicle is parked and no longer in motion.

Installation and Safety Precautions

- Do not shine the laser into eyes. This may cause permanent sight loss or injury.
- Do not attempt to service this product yourself. Attempt to open, remove, or modify this device may expose you to potential electric shock.
- Keep this product out of reach of children.

Recycling the Product

To dispose of this product properly, please follow the recycling process regulated in your area.
