## Product Diagram and Installation

1. Place battery in battery compartment, with tabs lined up in their correct slots.
2. Push battery into locked position

## Charging Guide

1. Connect provided USB-C to USB-A cable into a power source using the USB-A side (Xbox or Power Adapter), then connect the cable into the charging dock's USB-C input.
2. Carefully place the controller on the charging dock, making sure to line up the batteries charging contacts with the docks charging pins.
3. The front LEDs on the dock will show charging status. Red means the battery is charging, green means the battery is fully charged.

## Caution

- Cables must be placed well, where it would not be stepped on or pinched. Make sure cables are fully inserted into ports.
- Do not set up this product adjacent to a water source or an environment that has excessive moisture.
- Do not operate when hands are wet.
- Do not attempt to dismantle the product on your own.
- Do not throw or drop the product or subject it to strong physical shock.
- Do not use or store the product in a humid environment or a high temperature environment.
- Keep this product out of reach of children.
