Product Diagram and Installation

1. Place battery in battery compartment, with tabs lined up in their correct slots starting from the left side when viewing the controller from the back.

2. Push battery into locked position by pressing the right side of the battery into position.

⚠️

Disclaimer: The C-10777 charger and C-10781 battery pack must be used in conjunction with each other. Failure to do so might damage the products and void warranty.

Charging Guide

1. Connect provided USB-C to USB-A cable into a power source using the USB-A side (Xbox or Power Adapter), then connect the cable into the charger's USB-C input.
2. The charge indicator lights will flash solid red, then solid green before turning off and a green LED should illuminate the top, indicating that the charger is powered up and ready to charge your batteries.
3. Place the battery pack into the charging slot, making sure to insert the bottom first before locking in the top. Make sure the front is facing out and that you follow the "THIS WAY UP" instruction for proper installation.
4. When your batteries are fully charged, the small indicator LED at the bottom should be solid green.
5. Remove the battery by using the small tab on top of the battery to pry it out.

Caution

• Cables must be placed well, where it would not be stopped on or pinched. Make sure cables are fully inserted into ports.
• Do not set up this product adjacent to a water source or an environment that has excessive moisture.

• Do not operate when hands are wet.
• Do not attempt to dismantle the product on your own.
• Do not throw or drop the product or subject it to strong physical shock.
• Do not use or store the product in a humid environment or a high temperature environment.
• Keep this product out of reach of children.
